DISCUSS

1. Which is the biggest body–the sun, moon or Earth?
2. Is the distance between Earth and the sun greater or less than the distance between Earth and the moon?
3. What is the difference between rotation and revolution?
4. Does rotation or revolution cause day and night?
5. Does the sun rotate?
6. How long does it take for Earth to revolve around the sun once?
7. How long does it take for Earth to rotate on its axis once?
8. Draw a simple diagram of Earth's revolution pattern around the sun.
9. How does the moon move?
